

Do you want to stay competitive in an increasingly mobile world? Keep your name and your brand in front of your customers? You can with AgentNTouch™, the new smart-phone application by Real Estate Business Services (REBS).

Simply put, AgentNTouch™ is a marketing tool, branded with your information, for you to give to your clients. With AgentNTouch™, you can:

- Display your office information -- not just an address, but on a map.
- Add links to your web site
- Add links to your IDX -- after all, you want to help your clients find the perfect house
- Map your listings or your open houses. It's your app, personalize it for your business
- You can also track who has downloaded your app so you know how effective your marketing efforts are

Because we know you're busy selling real estate, REBS provides a wealth of real estate related information that gets updated daily:

Buyers - Information geared for your clients who are looking to purchase a home.

Sellers - Information geared for your clients who want to sell their homes.

Tools - Mortgage rates, mortgage calculators and real estate terms. In the future, this section will have handy tools for your clients to use whether or not they are in a buying/selling cycle.

News - The latest real estate news for everyone, including videos as well as news articles.

AgentNTouch™ is an annual subscription service, currently available on the iPhone, with Android and BlackBerry versions available later this summer. The initial setup fee is \$200 with a \$99 per year subscription fee, so the first year is \$299, and \$99 each year thereafter. But if you attend one of our webinars, you can save \$50 off the setup fee. Go to http://www.agentntouch.com/pages/page_content.php?cpi=2 to view the webinar schedule and sign up. But hurry, because the webinars are only scheduled until August 26th.

But when you're ready to sign up, come back here and click on this link:
